DISCOVER GREEN LIVING.

RAINWATER HARVESTING SYSTEM

It saves more natural water for future use and vastly improves water sustainability.

SOLAR PHOTOVOLTAIC SYSTEM

The system makes use of solar energy, thereby reducing electricity bills.

GREY WATER TREATMENT

Used water is treated and safely reused, thus reducing the use of new water.

HEALTH-SAFE PAINTS AND ADHESIVES

Low Volatile Organic Compound (VOC) paints, adhesives and sealants for interior fixtures ensure your health and safety.

WATER EFFICIENT FIXTURES

This simple addition ensures that water consumption is optimised and water bills are reduced.

RECYCLED CONSTRUCTION MATERIALS

Recycled and locally produced materials have been used, thus reducing carbon dioxide emissions.

SMART LIGHTING

CFLs and LEDs are used in external and common lighting areas to promote low electricity consumption.

WASTE SEGREGATION SYSTEM

Wet and dry waste management ensures that waste is handled in an eco-friendly manner.
